Mr. Rudy Toth
Smith & Kenzler Company
1414 East Linden Avenue
Linden, New Jersey

Dear Rudy:

This is just a note to thank you for your hospitality during my visit to your office on October 13 and to confirm the information we are seeking on your Spray Craft fireproofing.

If you have any data showing the effect of moisture on conductivity this would be most helpful, whether the data is expressed in terms of moisture content or in terms of humidity conditions during the test. Also, we would be interested in any information on specific heat.

Thanks again for your help.
